Access your databases on FileMaker Go

There are 2 convenient ways to access your information on FileMaker Go:

1. Connect to databases hosted on FileMaker Server or FileMaker Pro via a local wireless network or over the Internet using Wi-Fi or 3G. All changes are instantly updated in the hosted file. Instant updates make it easy to share with a team.
2. Copy your databases and email them to others right from your iPhone and iPad. This is ideal for accessing single-user databases. (Note: While copying files is supported, synchronization is not).

Is FileMaker Go right for you?

If you answer "Yes" to the green light questions, then FileMaker Go is right for you.

	Do you own FileMaker Pro or FileMaker Pro Advanced so you can create or modify databases?
	Is the database you want to access on FileMaker Go FileMaker Pro 7 or later?*
